

6.2

Graphing a System of Linear Inequalities

A linear equation in two variables is.....?

A system of linear equations in two variables is.....?

A linear inequality in two variables is.....?

A system of linear equalities in two variables is.....?

Ex.1. Graph the given system of linear inequalities.

$$\{(x, y) \mid x - y \geq 15, x \in \mathbb{R}, y \in \mathbb{R}\}$$

$$\{(x, y) \mid y \geq 10, x \in \mathbb{R}, y \in \mathbb{R}\}$$

Step. 1 Graph each inequality on different coordinate plane.

Graph of $x - y \geq 15$

Graph the given inequality following exercise 6.1

Graph of $y \geq 10$

Graph the given inequality following exercise 6.1

Step. 2. Graph both inequalities on same coordinate plane.

x -intercept = 15

y -intercept = -15

No x -intercept

y -intercept = 10

Classwork # 1, 2 (P.307)

Homework # 4 (P.318)
